How It Works

All prices you see are our net rates -- non-commissionable. You add your own markup and keep the full difference as profit. Your customers only ever see your final price.

Pricing Example

Our Net Rate:	EUR 80.00
Your Markup (25%):	+EUR 20.00
Customer Pays:	EUR 100.00
<hr/>	
Your Profit:	EUR 20.00

Three Ways to Integrate

	Partner Link	Widget / White-Label	API + Webhooks
Best for	Publishers, bloggers	Hotels, agencies, OTAs	OTAs, DMCs, platforms
Effort	Zero dev -- share link	Embed code (1 line)	REST API + webhooks
Go-live	5 minutes	Under 1 hour	3-5 days
Branding	Our hosted pages	Your colours & domain	Full control
Pricing	You set your markup	You set your markup	You set your markup
Payments	We handle	We handle	You charge customers

Net Rate Pricing Model

Every price on our platform is a net rate. There is no commission system. You decide your own markup and keep 100% of the difference. This applies to all integration types -- Link, Widget, and API.

All prices are net -- Non-commissionable wholesale rates. What you see is what you pay us.

You set your markup -- Add any margin you want. 10%, 25%, 50% -- it is entirely your choice.

Customer sees your price -- Your customers never see our net rates. They only see your final retail price.

Monthly commission payout -- We pay you monthly. NET-15 from month-end. Professional commission statements.

No hidden fees -- No setup costs, no monthly charges, no minimum commitments.

Commission Payouts

We pay you monthly. Commission statement + payout NET-15 from month-end. Minimum threshold: EUR 50. Payout via Bank Transfer (SEPA/SWIFT), PayPal, or Wise. We are the merchant of record: we charge the traveler and handle
